14 September 1948

Assistant Chief, Supply Division

25X1A

Proposed Contract [REDACTED]

A meeting was held in the Office of General Counsel on Friday, 10 September 1948 for the purpose of discussing the application of an Invention and/or Discovery Clause in the proposed contract.

25X1A

The meeting was attended by Messrs. Houston, [REDACTED] and [REDACTED] of the Office of General Counsel, [REDACTED] of Communications Division and [REDACTED] Services Branch.

25X1A

25X1A

25X1A

The contractor will accept nothing less than a fixed priced contract. Further, the contractor contends that the work to be performed is a modification of equipment of [REDACTED] design and development. As a consequence, no license will be granted in connection with this contract.

25X1A

It is felt that there is a definite possibility of new inventions or discoveries resulting from the proposed contract. Since the contractor has declined to include a provision for this in the contract, it was agreed by [REDACTED] and the General Counsel that investigation of another means of accomplishing the work would be made.

25X1A

No further action on the proposed contract will be taken pending further information from Communications Division and the Office of the General Counsel.
